About Our Services

Give your clients the confidence of dealing with the world's leading provider of cloud-based services. Our services are delivered by a globally distributed infrastructure and supported 24/7/365 by security experts and backed by the most comprehensive service level agreements (SLAs) in the industry. This provides a convenient and cost-effective solution for managing and reducing risk, and provides your customers with certainty in the exchange of business information.

Symantec.cloud services allow organisations to lower costs and simplify IT administration by using applications that run on shared multi-tenant infrastructure in the cloud. The need to manage hardware and software on site is virtually eliminated and services can be deployed rapidly, and replace capital investments with predictable pay-as-you-go subscriptions that maximise flexibility.

Our extensive range of services can be tailored to your customers' needs and include:

- Email Security
- Web Security
- Instant Messaging Security
- Endpoint Protection
- Email Encryption
- Email Continuity
- Email Archiving

Why Become a Symantec.cloud Certified Partner?

- High recurring profit margin that increases as your Symantec.cloud business grows
- Recognition through sales and support certification
- Dedicated account management, sales and marketing support designed to maximise opportunities
- Technical escalation support
- On demand and instructor led sales and technical training
- Exclusive incentives
- Regular communications and partner portal access
- Customisable demand generation marketing campaigns
- High customer satisfaction and retention rates
- Industry leading hosted messaging security service offerings and SLAs
